About six weeks ago Thomas C. Fleming, accompanied by his wife, and provided with an American passport, arrived from New Orleans.

CONSERVATISM AGAINST THE BALLOT BUT IN COMPLIANCE TO AMERICA. At a conservative banquet in Westminster last night Mr. W. H. Smith, M. P. for Westminister, made a speech, in which he criticized the Ballot bill, comparing the working of the system in England and America, denying that it prevented corruption. He made a most friendly reference to the United States, and declared it necessary for England to cultivate good relations with the American people. As the well-wisher of the American people he scorned the idea of going to war with them at any time; he felt that war between the two countries would have been impossible even if the Treaty of Washington had failed. He criticized the judgment of the Geneva Tribunal, but accepted it and said all Englishmen were bound to accept it as final.
