

CUBA. The Spanish Slaveowners' Meeting in Havana. COOLIE SLAVERY PROPOSED. The Havana Press Not Permitted to Report the Gathering.

The Insurance and Its Source of Supplies. SPANISH FINANCE—A NEW ISSUE. HAVANA, Feb. 1, 1873.

The question of abolition of slavery and changes in the form of governing the Antilles, agitated in Spain, has been the most absorbing topic of interest for some time past, and has caused great alarm to the oligarchy of this island.

A meeting, which had been looked forward to for some time, took place last Sunday at the Casino Español, composed largely of slaveholders and merchants. The avowed object of the meeting was to discuss the social question—slavery—and, as was generally supposed, to find means to anticipate the intentions of the home government, take time by the forelock, and, at whatever means or terms, put an end to an institution abhorred by the entire civilized world, and which only exists in all its horrors in Cuba.

As a matter of course, the Spanish Havana journals have given NO REPORT OF WHAT TRANSPIRED. In this assemblage, and it falls upon your correspondent to chronicle its results. The meeting was quite numerous, and composed of members of all classes of society—the native democratic element not represented—although a number of laborers were present.

The meeting was called to order and opened by the well known President of the Casino, Don Julian de Zulueta, who, in his peculiar, embarrassed, jerky manner, stated the object of the Junta, and, according to the order of the meeting of July 4, 1870, commenced and proceeded for the purpose of studying the best possible way to solve the difficult question of THE ABOLITION OF SLAVERY.

Without producing political or economical disturbances. Since that period, Zulueta remarked, they had been laboring engaged in the study of this arduous undertaking, and then he called the attention of slaveowners and others to the events which, in a vertiginous manner, are being precipitated, and that the royal decree, framed with regard to the sister island of Porto Rico, gave fears that it might yet be extended to this island. Fur, therefore, that the Abolition Society, with more malice than philanthropy, and the undoubted pressure exercised by foreign Cabinets, weighed with iron hand upon the intentions of this government to solve this dangerous question, without taking into consideration the immediate losses which would happen to this island by a premature solution of the difficulty.

SEÑOR ZULUETA then presented the Secretary of the Junta, to read a report to show the result of their labors and the project to establish an association to REPLACE THE SLAVES WITH CONTRACTED COOLIES. The Secretary then read a preamble, stating the object of the association, in a manner slow but sure, the present system of labor, proposing as the only means of overcoming the situation and saving the country the foundation of a society, of which all the slaveholders on the island should become members, with an annual contribution of \$10 for each slave owned, and with the sum of \$3,000,000, which, it is supposed, could be collected on this account—estimating according to last statistics the number of slaves at 300,000—to introduce coolies of all races into the island, including even the African. The project, as usual in these cases, is set forth in a complicated document, written in the highest phraseology of the Spanish language, the principal points being as follows:

SEÑOR ION RUÑO SAINZ, a respectable hardware merchant of this city, who is also an officer of volunteers and a prominent Spaniard, but who has distinguished himself by his liberal and humane opinions, has been hardened by his stock in trade, heretofore to say a few words, and, after reminding his hearers of his being a gentleman, he has pronounced the national language of the island where he had accumulated his wealth, and the proofs of his patriotism displayed in personal and pecuniary sacrifices, to be a project of profit to the same extent as the humane intentions of the Junta, and that his intentions, pretend to continue the "tragical" or slave trade under THE FLAG OF COLONIZATION.

SEÑOR ION RUÑO SAINZ, a respectable hardware merchant of this city, who is also an officer of volunteers and a prominent Spaniard, but who has distinguished himself by his liberal and humane opinions, has been hardened by his stock in trade, heretofore to say a few words, and, after reminding his hearers of his being a gentleman, he has pronounced the national language of the island where he had accumulated his wealth, and the proofs of his patriotism displayed in personal and pecuniary sacrifices, to be a project of profit to the same extent as the humane intentions of the Junta, and that his intentions, pretend to continue the "tragical" or slave trade under THE FLAG OF COLONIZATION.

Colomé did not state how much he was indebted to the Junta, but he said he would, although a well known fact by all present, he being the director of the Alianza Company, of the stock company and the society of colonization, which would be a great advantage, in case of a croaking that if the abolition policy was adopted it would be necessary for him to give his slaves, before commencing their duties, a SPONSOR CARE AND WINE, and, even then, he did not believe they would work.

SEÑOR ION RUÑO SAINZ, a respectable hardware merchant of this city, who is also an officer of volunteers and a prominent Spaniard, but who has distinguished himself by his liberal and humane opinions, has been hardened by his stock in trade, heretofore to say a few words, and, after reminding his hearers of his being a gentleman, he has pronounced the national language of the island where he had accumulated his wealth, and the proofs of his patriotism displayed in personal and pecuniary sacrifices, to be a project of profit to the same extent as the humane intentions of the Junta, and that his intentions, pretend to continue the "tragical" or slave trade under THE FLAG OF COLONIZATION.

THE DURHAM MURDER. The Prisoner Simmons Admitted to Bail, but Rearrested. Simmons Indicted for Murder by the Grand Jury.

THE DISTRICT ATTORNEY TO THE FRONT. Sharp Practice All Around—The Scenes at Bellevue Hospital.

John K. Simmons, charged with the murder of Nicholas W. Duryea, was yesterday morning admitted to bail in the sum of \$10,000. The amount of the bail was fixed in the coroners' office at eleven o'clock and the bonds signed in the prisoner's cell at Bellevue Hospital at half-past two in the afternoon. Simmons, however, is not at liberty, for at three o'clock he was rearrested by Deputy Sheriff Seebacher, on a bench warrant issued from the Court of Oyer and Terminer and signed by the District Attorney, directing the accused to be arrested and held for murder. The extraordinary verdict rendered by the coroners' jury was the theme of general conversation among all classes during the day, and opinions were freely vented not at all complimentary to the enlightened six who have immortalized themselves by the sagacious conclusion at which they arrived at two hours, discussion. It is generally supposed that the duty of a coroner's jury is to find the cause of death; but in this case the six men, good and true, did not content themselves with this simple way of dealing with the matter, and they rendered the opinion, in very English, that the case was a clear one of justifiable homicide.

The prisoner and his friends felt elated, as well they might, at this preliminary triumph, and immediate application was made for bail. The bail was granted as stated above, and the prisoner was about to be removed to this residence when the District Attorney interposed and entirely changed the programme; by a masterly stroke of policy, and the prisoner is now in as bad if not a worse condition than he was previous to the inquest. It is only in very extreme cases that a bench warrant under such circumstances is issued, but the District Attorney felt that the exigencies of the times and the interests of the case demanded that prompt action should be taken to hold Simmons until a higher tribunal than a coroner's jury should have determined his guilt or innocence. He will be found the details in full which transpired during the day.

PROCEEDINGS AT THE CORONERS' OFFICE. Yesterday morning, at eleven o'clock, the coroners' office was crowded by the relatives and friends of John E. Simmons, the alleged murderer of Nicholas W. Duryea, to listen to an application before Coroner Keenan for the release of Simmons.

Assistant District Attorney Lyons, who appeared for the people, commenced his argument by saying that he was directed by the District Attorney to strenuously oppose a motion to release Simmons on bail, and argued that the coroner should

No. 231 Thompson street, and the ball bond was given by the Sheriff, John E. Keenan, for the liberty. All preparations had been made for his removal to his residence, and the case ended of relative and inside were about to start with him, when the coroners' office was notified that the hospital, out of which (Jumped Deputy Sheriff Seebacher, and an assistant. Inquiries were had as to the whereabouts of the prisoner, and the sub-sheriff immediately proceeded in his direction. Inside the cell there were mutual congratulations going on all around, and the prisoner was being prepared for the entrance of Mr. Seebacher changed the entire feelings of those in the room. The sub-sheriff, however, was in the room, and he must have known he was his prisoner and that he must be removed to the Tombs. It would be impossible to picture the

CONSTERNATION AND DISMAY which this announcement created. A look of horror-stricken astonishment passed over the face of the prisoner and the consternation of his brothers became so general that the tearing of the prisoner's hair was an event so utterly unexpected that it came like a thunderbolt upon him.

SANITARY MATTERS. Meeting of the Board of Health—Report of the City Sanitary Inspector—Alarming Condition of the Public Schools.

At a meeting of the Board of Health, held yesterday afternoon, bids were received from a number of persons for the removal of the night soil of the city. The bids were referred to the President of the Board. A notice was sent to Middleton & Bell, who at present hold the contract, informing them that it will immediately terminate. The following important communication from the City Sanitary Inspector, in relation to the public schools, was read and placed upon file:

E. H. JAMES, M. D., City Sanitary Inspector—Sinsignifying the condition of inspection of all the public school buildings, and forwarding a report upon each such as we deem necessary, we submit the following report in relation to the public schools, as they are now situated:

SEÑOR ION RUÑO SAINZ, a respectable hardware merchant of this city, who is also an officer of volunteers and a prominent Spaniard, but who has distinguished himself by his liberal and humane opinions, has been hardened by his stock in trade, heretofore to say a few words, and, after reminding his hearers of his being a gentleman, he has pronounced the national language of the island where he had accumulated his wealth, and the proofs of his patriotism displayed in personal and pecuniary sacrifices, to be a project of profit to the same extent as the humane intentions of the Junta, and that his intentions, pretend to continue the "tragical" or slave trade under THE FLAG OF COLONIZATION.
