Senor Castelar said the troubles, difficulties and perils of the nation were increasing. The repub-licans, while struggling to establish the Republic, were united, but after they had victory were divided, because deal always exists. The present government represents a solid reality, and the opposition rep-resents an ideal. He brilliantly traced the history of democracy, and declared that the death of the Republic would be the sign of the death of liberty, and that the generation would be infamous which achieved liberty and failed to preserve it. I am a federalist, he said, but madness rends Spanish nationality while Italy and Germany are

coming more united. He reviewed the public life of M. Theirs, which, ne said, was a life of warfare. In conclusion Seflor Castelar invoked Divine pro

The Mayor-The question is not whether he is a "steerer" or not, but did he loss this money in the houses which you geniticmen keep or sire em-ployed in ? McManus (smiling)-Well, I didn't know about how it might influence your decision. I only stated it so that you might understand it.
